

## **INFORMATION REPORT ECG CATEGORIES A AND B PROJECTS**

1. Project information:
  - i) Name of the project
  - ii) Country of the project
  - iii) Sector of the project
  - iv) Financing of the project
  - v) Accepted amounts (Millions SDR)
  - vi) Brief description of services and capital goods and their target project
2. Other ECA cooperation (where relevant):
  - i) Other ECAs involved.
  - ii) If yes, please specify name(s) and role(s) of each ECA.
3. Classification:
  - i) Project Category
  - ii) Reasoning for project classification, including its type.
4. Environmental and social information revised:
  - i) Environmental and Social Assessment Report (ESIA)
  - ii) In the situation where ESIA is not performed please specify the type and source of the revised information
5. Applicable environmental and social standards:
  - i) Compliance with host country standards
  - ii) International standards for assessing the project:
    - World Bank safeguard policies (please specify which)
    - IFC Performance Standards (please specify which)
    - Leading Multilateral financial institution (please specify which)
  - iii) Please explain the option for the above-mentioned international standards, including where the case, non-project finance, triggers for World Bank safeguard policies or IFC Performance Standards use.
  - iv) Additional standards:
    - World Bank Guidelines regarding environment, health and safety (EHS Guidelines) (please specify which)
    - In the absence of EHS relevant guidelines, other standards used as per sector, internationally recognized, used for comparative analysis or other relevant international sources used for reference (please specify which)
  - v) Other internationally recognized standards such as European Union standards, stricter than the standards above (please specify which)
  - vi) In the situation when the project does not follow the relevant aspects of international standards used for its classification, please show the reasoning for non-compliance with international standards, offer the necessary arguments for supporting the project and report any monitoring procedures.

6. Evaluation of information related to environment and of the revised ones:
  - i) Key environmental and social elements considered.
  - ii) Evaluation results
  - iii) In the situation when support is granted in additional environmental and social conditions, please describe those; for clarity, conditions signify the specific terms ECA (or other parties in the syndicate) imposed for the building or exploitation stages not including precedent conditions apart for the compliance with the host country laws.
  - iv) Please indicate whether ECA requested the ex-post monitoring of the project if yes, please indicate the details (required information, monitoring frequency, etc.)
7. Transparency (only for projects in Category A):
  - i) *Ex-ante* publishing of the project information
  - ii) *Ex-ante* publishing of the environmental and social impact information (if possible, please indicate a link to the published information)
  - iii) If no, please explain.
8. Additional information:
  - i) Project identification code
  - ii) Any comments that may support building experience in the implementation of the current Recommendation.
